## LIQUIDITY PLUS (VERY LOW RISK) USD MODEL PORTFOLIO

### **QUARTERLY FACTSHEET**

31st MARCH 2025

# **PORTFOLIO OBJECTIVE**

This portfolio comprises investment vehicles focusing on money market funds to deliver cash like returns. Asset classes you could find in this model are cash plus funds and high quality ultra short duration fixed interest.

The Active Liquidity Plus seeks to generate a return moderately higher than cash over the short term (I-3 years or more) while maintaining very low volatility and a high level of liquidity. Portfolios will comprise 100% non-equity investments, though weightings may deviate within set parameters, allowing our managers to react to market conditions.

## **QUARTERLY REVIEW**

well equipped to deal with.

## **QUARTERLY OUTLOOK**

QI 2025 was driven by a sharp uptick in market volatility, driven As we move into the second and third quarters of 2025, markets by geopolitical uncertainty, shifting trade rhetoric from the new remain in a volatile state which will continue to be defined by US generation, and divergent regional performances. Despite the heightened market volatility, shifting geopolitical dynamics and US market remaining under pressure, there were multiple areas armed conflict, and evolving macroeconomic narratives around of the global market which performed well such as the UK, trade tariffs coming of the White House. Not to mention the Europe, Emerging markets and gold rallying strongly. All of these developing narrative of a US recession. While QI delivered a sharp areas of positivity helped to deliver clients some positive results selloff in U.S. equities and a rotation into international markets, the against a wider and more negative market driven lower by US rest of 2025 prepares for both challenges and opportunities for stocks. For investors, the quarter underscored the importance of investors like TAM. We maintain there are some fantastic areas to global diversification, active management, and vigilance amidst fast- be invested in 2025 and some great opportunities to buy high quality moving macro conditions which the TAM ACTIVE portfolios were investment at unusual discounts. Undoubtedly, active management and timing of these investments will remain key in delivering clients a profitable 2025.
