

OBJECTIVE

This model comprises predominantly passive investment vehicles (including SICAVs and ETFs) that track a market and aim to deliver returns reflective of how that market is performing. Asset classes you could find in this portfolio are equities, bonds, alternatives, and cash. Absolute return, commodities and property may all feature within the alternative's classification.

The portfolio seeks to generate modest returns, higher than cash in the bank, over the short to medium term (3 - 5 years or more) with potential for consistent though constrained capital growth. Portfolios will typically comprise 20% equity and 80% non-equity, though weightings may deviate within set parameters, allowing managers to react to market conditions.
