

**OBJECTIVE**

This model comprises a wide range of diversified active investment vehicles including unit trusts and mutual funds, whose managers aim to outperform their respective markets. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, commodities and cash. Absolute return, multi-asset and property may all feature within the alternative's classification.

The portfolio seeks to generate higher capital growth over the medium to long term (5 – 7 years or more) by employing a more dynamic investment strategy. The portfolio will have a higher exposure to equities compared to Active Balanced - typically comprising 70% equity and 30% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.
