

WHO WE ARE

TAM Europe Asset Management (TAM Europe) was established in 2019 to enable the European IFA market to offer their Europe-based clients the award-winning model portfolio service provided by UK-based discretionary investment manager TAM Asset Management (TAM). TAM's origins trace back to the 1930s and today they are recognised around the world as an institutional investment expert providing advisers and their clients with both onshore and offshore investment management solutions.

HOW WE HELP

By focusing on our core strengths, we can achieve more. The challenge of managing clients' investments increases year-on-year. Whether it be dealing with market uncertainty, regulatory changes or increased client demands, advisers are often distracted from their core strengths of relationship building, structuring and holistic financial advice. Partnering with TAM Europe to offer your clients access to award-winning investment solutions can allow you to focus on those core strengths and build your business.

OUR MULTI-ASSET FUND

TAM Global is our multi-asset fund solution for investors worldwide. Our 16-year global balanced strategy has been unitised into a single fund which now celebrates a 4-year track record.

This balanced Irish Collective Asset-management Vehicle (ICAV) aims to provide a return on your investment (achieved via increasing the value of the assets held within the portfolio) over a medium term investment horizon (5 years or more). The fund's investment structure is that of a "fund of funds" portfolio which seeks to provide investors with a diversified investment portfolio consisting of UCITS compliant funds or "collectives" from across the global investment universe.
